

Wedding Shoot — Homepage Wireframe

Low-fidelity structural draft · No visual design, no imagery · For internal review & sign-off

Version v2 **Scope** 11 blocks — hero → final CTA

Channel Organic / SEO only — no paid traffic **Goal** Enquiry for wedding date

How to read this. Every element is labelled by role, not styled. Boxes = structure only.

BUTTON CTA **→ /URL/** internal link target **popup form** opens shared form **VARIANT** pick-one option

DEV NOTE build instruction **SEO** search-optimisation instruction **[X]** real data needed before launch

Global (all sections): A persistent **WhatsApp float** sits bottom-right on every section · the primary **Check Availability for Your Date** button opens ONE shared **popup form** everywhere it appears — never a separate page or a second flow · the secondary **Book a Discovery Call** button opens **WhatsApp chat**.

Positioning rule: This page moves the brand from *local photographer* → *premium wedding & destination professional*. Nothing about birthdays, corporate, maternity or small events appears anywhere on this page.

1 · HERO

#hero

HEADLINE (H1)	Wedding & Pre-Wedding Photographers based in Gurgaon
SUBHEAD	Covering weddings and destinations across North India since 2016.
TRUST ITEMS	300+ Weddings 10 Years Sits inside the hero, directly under the CTAs — not a separate band.
BUTTONS	Check Availability for Your Date → → opens popup form (primary) Book a Discovery Call → WhatsApp chat (secondary)
BACKGROUND	ONE FULL-BLEED EDITORIAL WEDDING FRAME · WITH OVERLAY/SCRIM FOR TEXT LEGIBILITY

DEV NOTE — ONE image only. The old site used a cluster of 5 mismatched images with no headline — that is the single biggest reason it reads as a local studio. One commanding frame + one headline + one primary CTA.

SEO — H1 carries the primary keyword cluster: *wedding photographers + pre-wedding photographers + Gurgaon*. Subhead adds *destination + North India* + the 300/2016 trust numbers without repeating the H1.

2 · REAL WEDDINGS

#real-weddings

HEADING (H2)

Real Weddings

SUBHEAD

Every couple gets their own story — never a template.

CARDS (3)

COVER

[X] Couple 1
Gurgaon
[View story →](#)

COVER

[X] Couple 2
Jaipur — destination
[View story →](#)

COVER

[X] Couple 3
Delhi
[View story →](#)

CTA

See All Real Weddings →

 → [/real-weddings/](#) (in-page, browse intent)

DEV NOTE

— Each card links to a dedicated per-couple story page /real-weddings/[couple-slug]. **[X] Real couple names + covers needed before launch.** Deliberately lead with one destination couple — it proves the destination claim before Section 7 makes it. **No hard CTA here** — visitors are browsing; don't interrupt.

3 · THE DIFFERENTIATOR ★

#why-us

HEADING (H2)

What separates us from a regular photographer

COMPARISON

REGULAR PHOTOGRAPHERS	WEDDING SHOOT
You send an enquiry. They send a price list.	You get a discovery call. We understand your events, your family, your day — before we quote anything.
No planning. They arrive on the day and figure it out.	Planning calls before every shoot. Locations, timeline, key moments, key people — agreed before we arrive.
Photos dumped on a Drive link that expires. You chase them on WhatsApp.	Your edited work in a private app — view, select, share, download. Anytime.
"A few months." Delivery slips. You keep following up.	On-time delivery. Completion timeline shared with you right after your event.
One camera, one style. Everything looks the same.	Specialist teams — candid, traditional, cinematic — working the same day.

CTA

Check Availability for Your Date →

 → opens [popup form](#)

DEV NOTE

— This is the conviction peak of the page and the heart of the rebrand. It is the section that makes "premium" feel earned rather than claimed. Primary CTA fires here because trust is at its highest.

MOBILE: the two-column table does NOT work on mobile.

Flip each row into a stacked card — the grey "regular photographer" line above, the bold "Wedding Shoot" line below. This is a hard requirement, not a nice-to-have.

HEADING
(H2)

What We Shoot

TILES (4)

IMAGE

Wedding Photography

[View work →](#)

IMAGE

Pre-Wedding Shoots

[View work →](#)

IMAGE

Cinematic Films

[View work →](#)

IMAGE

Candid Photography

[View work →](#)

DEV NOTE — Image-led tiles. One line of text each. No paragraphs. The old site had four keyword-stuffed service paragraphs on the homepage — those move to individual service pages where they can actually rank.

HEADING
(H2)

Pre-Weddings, Beyond the City

SUBHEAD

Where you shoot changes the story you tell.

CARDS (5)

IMAGE

Delhi NCR

City light, close to
home

[See work →](#)

IMAGE

Nainital

Lakes and pine, in
soft light

[See work →](#)

IMAGE

Rishikesh

River, and light in
the hills

[See work →](#)

IMAGE

Jaipur

Palaces,
courtyards, old
walls

[See work →](#)

IMAGE

Jim Corbett

Forest light and
open sky

[See work →](#)

SEO — THIS IS THE BIGGEST ORGANIC PLAY ON THE PAGE. Five internal links into five dedicated location pages: [/pre-wedding/delhi-ncr](#) · [/pre-wedding/nainital](#) · [/pre-wedding/rishikesh](#) · [/pre-wedding/jaipur](#) · [/pre-wedding/jim-corbett](#)
Each page targets "*pre wedding shoot in [location]*" — high-intent, low-competition. **Delhi NCR is the highest-volume keyword of the five** and anchors the local search; the other four carry the destination positioning. Build these five pages, don't just link them.

HEADING
(H2)**Getting married away from home? We do cover destination**

BODY

A wedding away from home has enough moving parts. Your photography team shouldn't be one of them. We arrange our own travel and stay, and the whole shoot is planned with you before anyone packs a bag. You focus on your guests. We'll handle our side.

SEO LINE

VARIANT — KEEP OR KILL

Shot in Jaipur · Rishikesh · Nainital · Jim Corbett — and travelling wherever you're headed.

CTA

Book a Discovery Call → → WhatsApp chat

DEV NOTE — Secondary CTA (WhatsApp), not the form. Destination couples are early-stage and full of questions ("can you even come to Nainital in February?"). A form feels premature here; a chat converts.

Deliberately NOT claiming years of destination experience or a volume figure — the portfolio can't back it yet. The claim is *logistics you don't have to manage*, which is 100% true, unique in this market, and needs no portfolio.

SEO — DECISION NEEDED. Without the VARIANT line above, this section contains **zero location keywords** and Google cannot connect the page to "*destination wedding photographers*" intent. Recommend keeping it — one line, entirely true, and it does not dent the tone.

HEADING
(H2)**How We Quote**

BODY

Every wedding is unique, so we don't offer fixed packages. You tell us your event details & requirements. We send a written, itemised quote.

STEPS (4)

- 1
— Tell us your dates & event details
- 2
— We check availability and send an itemised quote
- 3
— You see exactly what's included — nothing hidden
- 4
— What you sign is what you pay

CTA

Check Availability for Your Date → → opens **popup form**

DEV NOTE — NO PRICING ON THE PAGE. No figures, no "starting from", no package cards. This section converts the absence of pricing into a *premium behaviour*: we quote you honestly rather than sell off a shelf. The "Get Pricing" gated PDF can slot in later as a secondary CTA without changing this structure.

8 · TEAM		#team
HEADING (H2)	The People Behind the Camera	
MEMBERS (4)	PHOTO Aman Co-founder, Team Lead & Marketing Head PHOTO [X] Name Creative Expert PHOTO [X] Name Cinematography Expert PHOTO [X] Name Traditional Expert	
CLOSING LINE	One in-house team. The people you meet are the people who shoot.	
DEV NOTE — [X] Three specialist names + photos needed before launch. Four named craft leads is what makes "we're a team, not a guy with a camera" <i>visible</i> rather than claimed — and it directly backs the "specialist teams" row in Section 3.		

9 · TESTIMONIALS

#testimonials

HEADING (H2)	What Our Couples Say
QUOTE 1	"I had my 2 days pre wedding shoot done in Nainital and couldn't have been better. Their team is super creative and the owner gets involved with the client to discuss the feedback after each delivery." — Vishesh Bansal · <i>proves destination + owner involvement</i>
QUOTE 2	"We just received our wedding album, and the quality is absolutely superb — the print, the layout, the finish are top-notch. A special mention to the design of the pen drive — every family member noticed and loved it!" — Pinku Shaw · <i>proves premium deliverables</i>
QUOTE 3	"Our pre-wedding experience with Wedding Shoot was amazing. The edited photographs and video teaser were absolutely stunning." — Karan Malik · <i>proves pre-wedding craft</i>
DEV NOTE — No CTA in this section — deliberately. Trust is peaking; let it carry the reader into the FAQ rather than breaking the spell with a button. Each quote is chosen to prove a <i>different</i> claim. Pankhuri Srivastava + Monika Gautam reviews are held back for the About page / Google reviews strip.	

10 · FAQ		#faq
HEADING (H2)	Questions Couples Ask Us	
Q&A (3)	Do you travel for destination weddings, and how does that work? Yes — destination work is a core part of what we do. We've shot across Jaipur, Rishikesh, Nainital and Jim Corbett, and we travel wherever you're getting married. We arrange our own travel and stay, and the shoot is planned with you before we leave. When do we get our photos and films? Your completion timeline is shared with you right after your event, and we deliver on time. Your edited work lands in a private app you can access anytime — view, select, share, download. Not a link that expires. How far in advance should we book? For peak season (Nov-Feb) and destination dates, 4-6 months is comfortable — the best dates go earlier. If your date is close, still ask. We'll tell you honestly whether we're free rather than stretch the team thin.	
SEO — Mark up with FAQPage schema . This is the page's best shot at a rich result in Google, and Q1 carries the destination keywords naturally.		

11 · FINAL CTA		#final-cta
HEADLINE	Let's tell your wedding story.	
SUBHEAD	Tell us your date — we'll tell you if we're free.	
BUTTONS	Check Availability for Your Date → → popup form Book a Discovery Call → WhatsApp chat	
DEV NOTE — Last conviction point. Both CTAs, nothing else on screen. No nav distractions, no extra links.		

Appendix A · Mobile Requirements

HERO	Full-bleed image, H1 overlay max 3 lines @ 32px. CTAs stack full-width.
SECTION 3 ★	The two-column table breaks on mobile. Flip each row to a stacked card: muted grey "regular photographer" line above, bold "Wedding Shoot" line below. Hard requirement.
REAL WEDDINGS	Horizontal swipe carousel.
LOCATIONS	2×2 grid, or horizontal swipe.
TEAM	2×2 grid.
STICKY	WhatsApp float, bottom-right, always visible.
CTA	Full-width, min 48px height, thumb-reachable.
FONT	Body min 16px. Never smaller.
IMAGES	WebP, <200KB, lazy-load below fold. Critical — React rebuild is partly about speed.

Appendix B · CTA Placement Logic

PRIMARY	Check Availability for Your Date → opens popup form Appears at the three conviction points only : Hero · after the Differentiator (§3) · after How We Quote (§7) · plus Final CTA (§11).
SECONDARY	Book a Discovery Call → opens WhatsApp
IN-PAGE	Hero · Destination (§6) · Final CTA (§11). Low-friction, for people not ready to fill a form. See All Real Weddings → . View work → . See work →
NO CTA	Browse intent. Sections 2, 4, 5. These feed the SEO internal-link structure. Sections 9 (Testimonials) and 10 (FAQ) carry no CTA at all — deliberately. Trust is peaking and doubts are resolving; a button here would feel like a salesman tapping your shoulder mid-sentence.
POPUP FORM	3 fields max: Name · WhatsApp number · Wedding date. (Optional 4th: location/events.) Every extra field costs leads. The date field does double duty — it's what you need, and it makes the "check availability" promise feel real.

Appendix C · Open Items Before Build

[X] TEAM	Three specialist names + photos (Creative / Cinematography / Traditional)
[X] COUPLES	3 real couple names + cover images for the Real Weddings block — at least one destination couple
VARIANT	Section 6 SEO line — keep or kill? (Recommend keep)
PENDING	Task 1 — Brand motive: vision, mission, taglines, secondary palette, typography. All final copy above is locked, but the brand voice layer is not yet defined.
FIX	Live site says "Since 2010" — wrong. Correct year is 2016 . Fix on site + all directory listings.
